*Acknowledgement*

Receipt is acknowledged of the Amendment filed February 23, 2005.

*Reasons for Allowance*

Claims 1-20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Agrawal et al., taken alone or in combination of other references, does not teach or fairly suggest a method or a programmable logic device comprising, among other things, a programmable logic block including a plurality of macrocells and a microsequencer operable to provide a sequence of logical inputs to the programmable logic block, at least part of the sequence determined by logical outputs provided by the macrocells of the programmable logic block, as set forth in claims 1 and 13; and selecting a microinstruction from a set of stored microinstructions in the read-only memory based upon the selected input condition and the previously-executed microinstruction; and executing the selected microinstruction to provide inputs for the set of inputs, as set forth in claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
